

# Your Direct Pipe and Microtunneling Specialists

Providing quality trenchless solutions  
across North America.

# WHO WE ARE

## A TRENCHLESS CONTRACTOR SERVING NORTH AMERICA.

Kramer Direct was founded with the goal of providing top-tier client service and industry-leading technology solutions within the direct pipe industry. With over 30 years of experience, our team of experts is dedicated to providing quality services to clients across North America.

### WHY US?

#### Client-first Approach

The constant search to provide faster and more cost-efficient solutions.

#### All-inclusive Pricing

We stand by our quotes for our customers and ensure our pricing covers all of your project needs.

#### Reliable and Trained Contractors

All of our operators are Herrenknecht directly trained with knowledge and experience using the equipment.

#### Top-tier Equipment and Technology

Rigorous in-house testing and servicing of equipment after every use.

# SERVICES WE OFFER

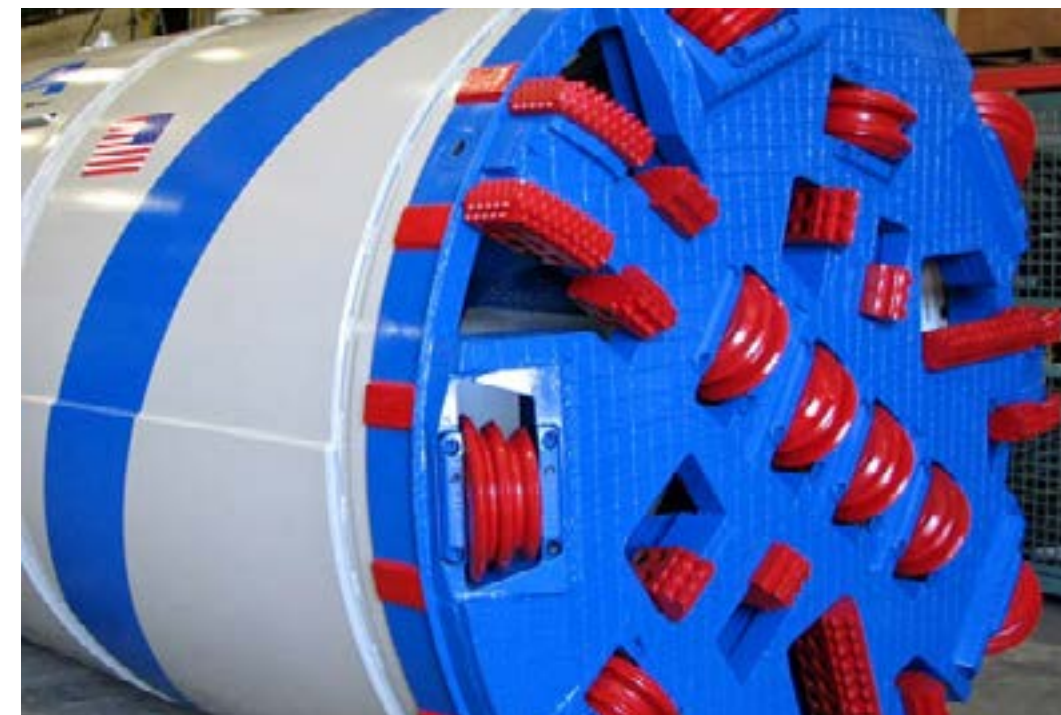

## DIRECT PIPE

[Herrenknecht Direct Pipe System](#)

Direct Pipe offers a cost-efficient, low impact, and environmentally friendly solution to allow for a one-step single-stage installation process. Kramer Direct offers CSA approved Direct Pipe equipment.

[LEARN THE ADVANTAGES](#)

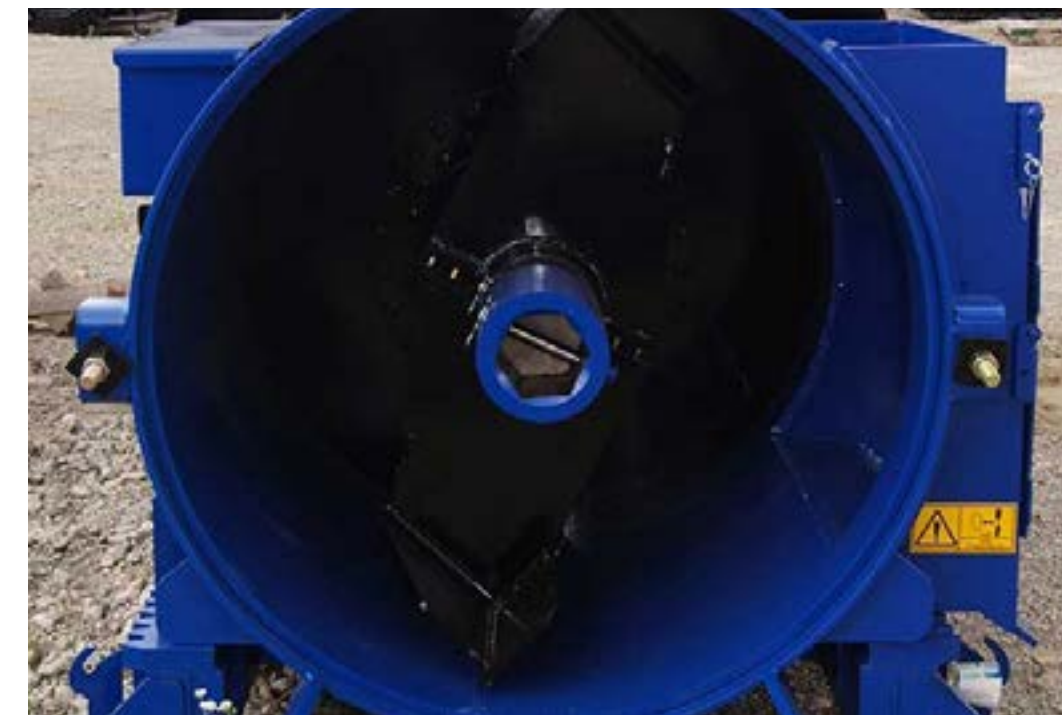

## GUIDED BORING/ MICROTUNNELING

[Akkerman Microtunnel Boring](#)

Microtunneling methods are the optimal choice for small diameter, unmanned tunnel boring projects. The machine is remotely operated from the service and allows for a continuously supported pipe jacking method. Short microtunnels available for up to 300 meters.

[LEARN THE ADVANTAGES](#)

## HORIZONTAL AUGURING

[American Augers Boring Machines](#)

Horizontal Auguring is one of the oldest forms of trenchless technology and is best suited for softer ground conditions. Compared to other trenchless solutions, Horizontal Auger Boring has a lower cost and offers a relatively simple operation of the machines.

## RETRACTABLE HEAD SYSTEM

[Herrenknecht Retractable Technology](#)

Kramer Direct is the only company in North America offering its newest service, the Retractable Head System by Herrenknecht Technologies. This groundbreaking technology is ideal for casing installation in unstable ground conditions.
