MESSAGE TO MEMBERS

New LTFN Manager of Public Works

Beginning July 6, 2022, Barry Seymour has been assigned and accepted the LTN Manager of Public Works responsibility.

Some of you may recall, in past years, Public Works department was under the Lands Department, LTFN moved this responsibility back to the Lands Department under Barry Seymour's authority.

This move should bring more management stability to this department in terms of community services to be delivered, budgeting, planning, accountability etc.

We expect to see immediate improvements and efficiencies under Mr. Seymour's management leadership.

Executive Director Joe Gosnell
